

Introducing

# FrogKiosk

Streamlined. Simple. Safe.

# FrogKiosk Features

## Cashless payments

Compatible with Google Pay, Apple Pay, We Chat Pay, AliPay, Paywave, QR code, Pin Number of Access Card, Mag Stripe, and more.

## Ticketless system

Simply pay-by-plate. This means zero required paper ticket stock; lowering your overall maintenance costs and supporting the environment.

## Implement dynamic pricing

Set operational specific rates for maximum revenue collection.

## Instant rate updates

Kiosk system updates instantly to reflect your changes in parking rates and access rules with no additional charges.

## Cloud storage

All digital data is stored on offsite servers via cellular data communication.

## Sustainable

Superior engineering ensures less repair wastage. Built to stand the test of time.

## Customizable interface

Customize user experience from the Frogparking Dashboard - including personalized branding, workflow and interface layout

## Universal payment device

Ability to pay both on entry & exit, making it the world's-first universal payment device.

**Seamless, ticketless and cashless parking** made simple with flexible contactless payment options to suit any user.

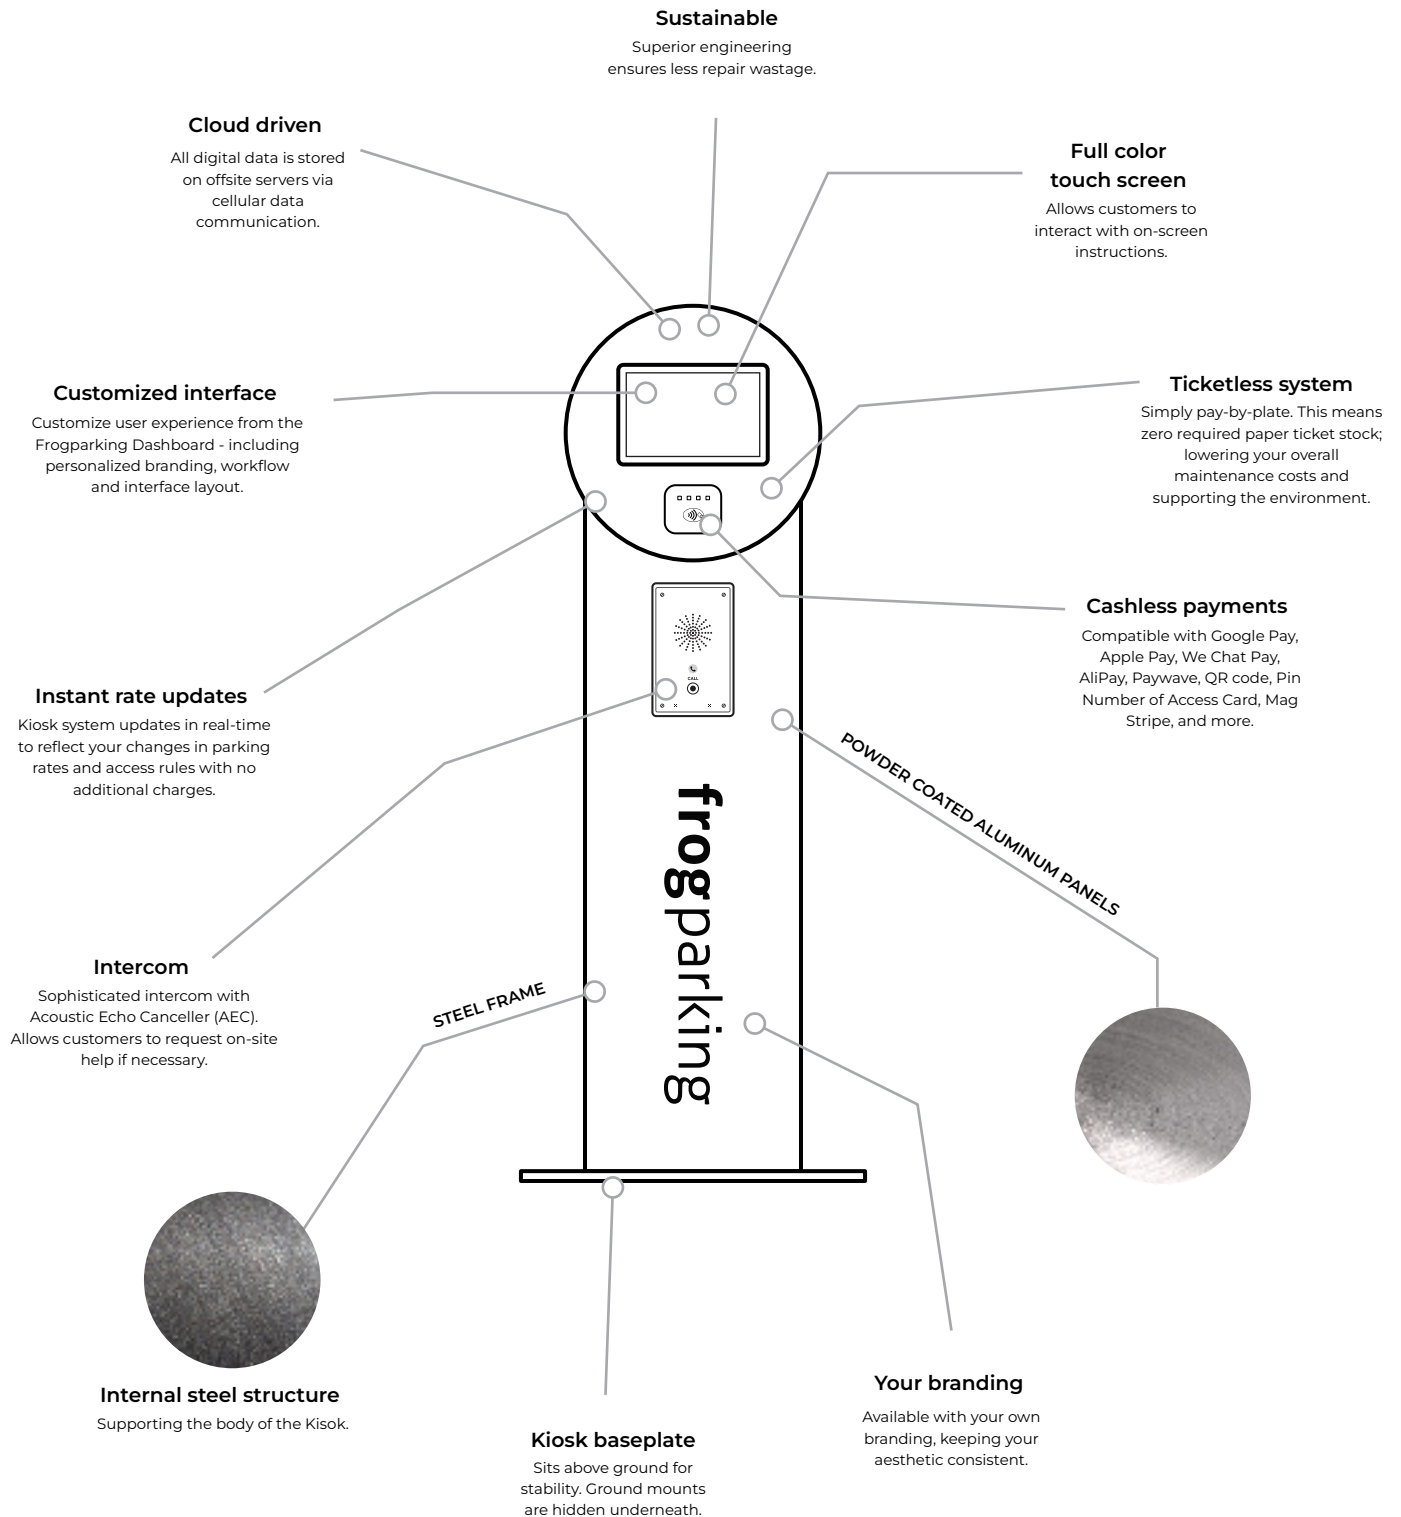

**Instant rate updates effective immediately on site with no additional charges**, giving you complete control over your parking access whilst maximizing your revenue.

**The latest in future-leading technology**, featuring our modernized design to make your parking asset stand out.

**Reduce your maintenance costs** with a solution that has less moving parts and requires limited human interaction.

- ✓ One terminal for all use cases. Deploy only what you need where you need it
- ✓ Pay on foot, pay on entry or pay on exit terminals
- ✓ No on-site servers required
- ✓ Full color touch screen
- ✓ Ongoing maintenance costs reduced significantly with less moving operational parts
- ✓ Merchant set-up available
- ✓ Remotely configurable rate setting with instant implementation
- ✓ Maintained remotely
