

Frogparking
a leap into the future.

Introducing

FrogOne

Your complete
end-to-end **parking**
management solution

Frogparking is a world-leading provider of comprehensive parking management solutions. Currently, we hold the unique position as the only company capable of delivering a complete customized end-to-end package, from access to exit. Our in-house agile global team are committed to crafting aesthetically pleasing parking solutions, whilst constantly developing and using cutting-edge technology. We hold several pioneering achievements; the first to introduce outdoor solar sensors, incorporate LiDAR technology into indoor sensors, and to develop a self-resetting barrier arm.

With a rich fifteen-year history, we confidently endorse our products, knowing their ability to withstand the test of time. Beyond their innovative nature, our products are not only reliable but also enjoy a trusted reputation. We pride ourselves on helping our customers increase yield, reach revenue potential and support their overall organizational goals.

Embrace the future of parking with Frogparking - take a leap into the future with us, where possibilities are endless.

Hardware Solutions

Fast. Reliable. Effortless.

Manage your entry & exit points efficiently with **FrogGate.**

Discover a groundbreaking leap in Parking Access & Revenue Control Systems (PARCS). Experience the pinnacle of innovation with the worlds-first automatically resetting carbon fiber barrier arm. Say goodbye to hefty maintenance costs, and **say hello to unparalleled operational continuity.**

Not only does the FrogGate self-reset upon impact, this highly reliable gate is also extremely low liability. It has inbuilt safety lasers that will stop the barrier arm moving if a person or mobility device (i.e. car, truck, mobility scooter, wheelchair) is within the impact zone.

Not to mention, its unique design ensures that the arm remains in the drivers view the whole time it actuates; allowing drivers to **move through the barrier much quicker** with the confidence that it will clear their vehicle.

Another stellar feature of the FrogGate is that its relatively simple and easy to install. It doesn't require any major civil works, and we can install during 'down periods' to ensure you are back up and running ASAP.

Let FrogGate be your fast, reliable & effortless response to parking barrier solutions.

Speeds up your entries & exits

FrogGate opens and closes rapidly, optimizing traffic congestion to help everyone get to their destination faster. The speed can be adjusted to suit your needs.

Maximizes your revenue

FrogGate's patented auto-resetting arm maximizes revenue by minimizing operational downtime, ensuring that all revenue is captured.

Unmatched pedestrian & vehicle safety

With inbuilt safety lasers, the barrier arm will stop moving until the person or vehicle is clear of the impact zone. Say goodbye to liability headaches.

Streamlined. Simple. Safe.

Experience a payment experience like no other with **FrogKiosk**.

FrogKiosk is a ticketless, cashless, parking payment kiosk that has far less 'moving parts' compared to traditional parking payment kiosks. As a result, the FrogKiosk **significantly reduces maintenance time and expenses**. Not to mention, directly contributing to your overall sustainability goals.

It is so payment-versatile that it actually goes beyond standard payWave payments. The FrogKiosk also supports Apple Pay and Google Pay, with the flexibility to explore additional options such as WeChat Pay and Ali-Pay-enabled mobile payments.

Integrating seamlessly with our FrogHub rates engine, the FrogKiosk offers instant rate updates in real-time to accommodate your surge pricing strategy.

Easily customizable to match your branding, FrogKiosk empowers you with seamless revenue control. With its user-friendly interface and responsive touchscreen, FrogKiosk ensures **quick and hassle-free transactions**, making it the perfect solution for effortless payments as vehicles enter and exit your parking facility quickly.

Allow FrogKiosk to streamline your payments, simply & safely.

Contributes to your sustainability goals

Our hassle-free system means you won't need any paper tickets, which not only reduces your maintenance costs but is also a big green tick for the environment.

Unmatched payment versatility

You can use this with almost all the popular tap-and-go payment methods, as well as offering the biggest range of mobile app payment options. Thanks to Windcave's reader, it's super convenient and works like a charm.

Maximizes your revenue

You can tailor your rates to match your revenue goals, all with a few clicks on your FrogHub (personalized data dashboard).

FrogLPR

Elegant. Discreet. Optimal.

Enhanced parking control & access management with **FrogLPR**.

The FrogLPR license plate reader is our solution to optimizing entry & exit to your parking lot, under almost any lighting condition, with precision accuracy.

Connecting beautifully with the rest of the PARCS as well as FrogHub, this LPR does not require any additional servers as relevant information is stored using the latest in cloud-based technology.

Let privacy concerns be a thing of the past for your drivers, as this LPR converts license plate to text and securely sends it to the cloud. Any images are deleted locally to keep information secure in anticipation for future changes to security laws. This means, your customers can be comfortable knowing that their information can't end up in the wrong hands.

Experience the streamlined efficiency of FrogLPR as it **accelerates entry and exit processes**, guaranteeing a congestion-free parking experience while prioritizing security and privacy.

FrogLPR is our elegant & discreet solution that guarantees optimal results.

Speeds up your entry & exits

FrogLPR logs accurate entry and exit times and communicates with FrogGate within seconds for quick and seamless parking access. FrogLPR automatically calculates payment requirements upon exit.

Reduces privacy concerns

FrogLPR converts license plates to text so only the necessary metadata is available. Any images are deleted locally to keep information secure and anticipate any future changes to security laws.

Operates in various lighting conditions

FrogLPR uses the latest and greatest in AI technology - boasting unparalleled accuracy whether you have an indoor or outdoor solution.

Redefine parking precision and convenience with FrogGuidance.

Introducing FrogGuidance, our cutting-edge Parking Guidance System (PGS) designed to revolutionize traffic management, reduce your carbon footprint, and elevate customer satisfaction.

This patented LiDAR indoor parking guidance system seamlessly transforms parking experiences, ensuring smooth entry into available spaces and **maximizing user enjoyment**, particularly in busy facilities.

FrogGuidance uses laser technology and LED lighting to provide real-time parking availability information, accurately detecting vehicle presence and movement regardless of lighting conditions.

Forget outdated technologies. FrogGuidance is customizable to each parking area's unique needs with a full-color spectrum of ultra-bright LEDs, plug & play installation, and aesthetic customization.

With seamless integration into FrogHub, our data dashboard, FrogGuidance offers a user-friendly experience for both indoor and outdoor parking, **providing insightful performance metrics on a cloudbased dashboard.**

Let FrogGuidance be the efficient, easy & excellent answer to your parking management challenges.

Reduces traffic congestion

FrogGuidance makes navigating indoor parking structures effortless by using laser technology to detect the presence of vehicles and providing LED light guidance for quick and seamless parking.

Contributes to sustainability goals

Lower your carbon emissions with improved time-to-park and subsequent reductions in traffic congestion and cruise time.

Maximized efficiency & low latency

Optimize efficiency with our Parking Guidance System, delivering swift guidance and minimal delays for seamless parking experiences.

Unmatched accuracy for optimal parking with FrogSensors.

Introducing FrogSensor, a pioneering parking sensor system by Frogparking that guarantees to enhance the effectiveness of your car parking facilities.

This original solution, featuring patented technology, has proven its reliability across diverse environments and weather conditions. The outdoor FrogSensor offers versatile installation options - mount it, make it flush, or recess it within the road for a **seamless and discreet appearance**.

Boasting unmatched accuracy through multiple detection methods, the FrogSensor range provides a customized solution for any environment and lighting condition.

Wirelessly transmitting data to your FrogHub dashboard in real-time, FrogSensor **improves your understanding of parking assets, occupancy rates, and utilization**.

With a fifteen-year history, FrogSensor stands as a sleek, consistent symbol of enduring reliability and precision in trending parking technology.

Reduces traffic congestion

FrogSensors efficiently minimize traffic congestion, ensuring smoother traffic flow for a seamless commuting experience.

Maximized efficiency & low latency

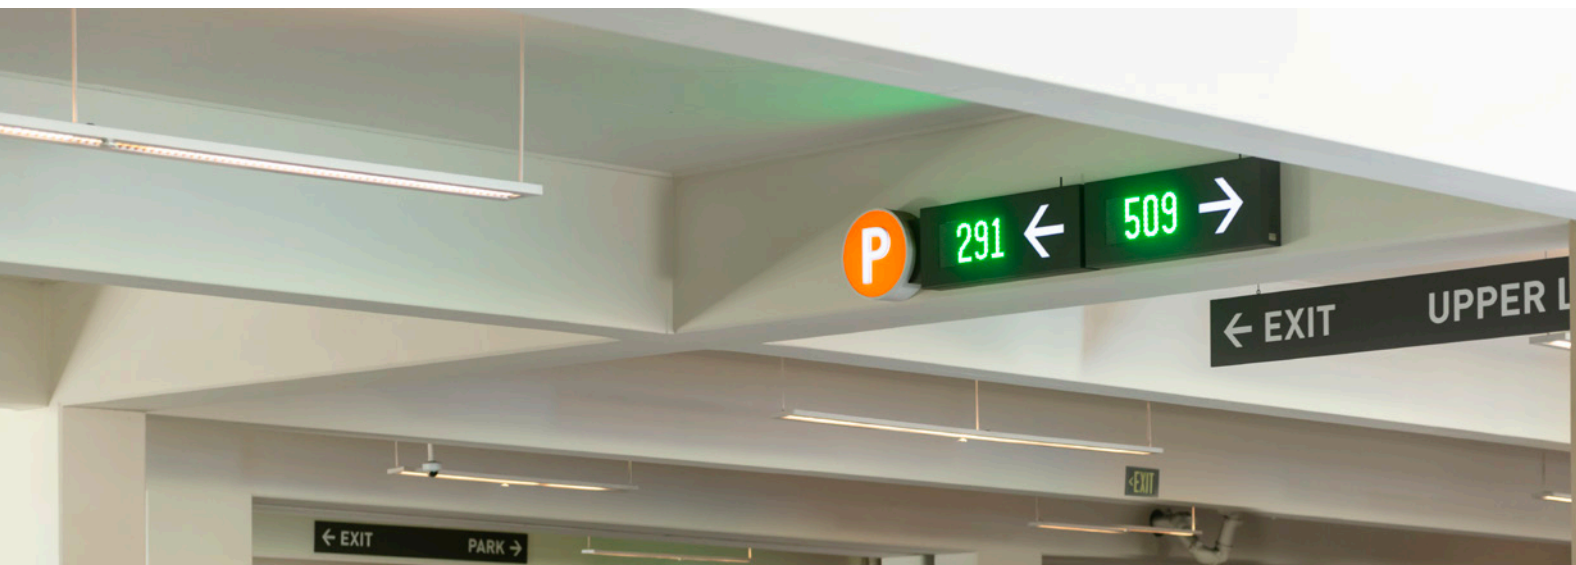

Optimize efficiency with FrogSensors, delivering swift guidance and minimal delays for seamless parking experiences.

Contributes to sustainability goals

Lower your carbon emissions with improved time-to-park and subsequent reductions in traffic congestion and cruise time.

FrogSigns

Dynamic. Tailored. Effective.

Effortless, next-level wayfinding with dynamic FrogSigns.

Introducing FrogSigns, your revolutionary indoor & outdoor wayfinding solution by Frogparking. Say goodbye to parking uncertainties with our dynamic messaging options, **providing real-time occupancy information and guiding drivers to available spaces.**

Immerse yourself in the freedom of choice with FrogSigns, available in various sizes, orientations, fonts, and colors, ensuring a personalized touch that harmonizes with your brand identity.

Whether you prefer a sleek, modern design or a vibrant, engaging display, Frogparking tailors FrogSigns to your exact specifications, offering unparalleled flexibility. Elevate your signage further by personalizing with vinyl applications, including logos, arrows, text, and more.

Need a custom sign? Reach out to our dedicated team with the expertise to create bespoke signage tailored to your unique requirements.

Experience the dynamic and transformative power of FrogSigns, tailored to be completely effective.

Reduces traffic congestion

Take the guesswork out of finding a parking spot. Because FrogSigns have real-time occupancy information, you can direct drivers to available spaces.

Maximized efficiency & low latency

Our signs have a direct line to the server and gateways, ensuring lightning-fast and precise data delivery for seamless parking experiences.

Real-time parking data at your fingertips

FrogSigns display the data gathered from Frogparking detection hardware - providing seamless, real-time counts to drivers, directing them to available spaces.

FrogCounter

Practical. Sophisticated. Exact.

Precise vehicle management with the innovation of FrogCounter.

Experience unmatched speed, & precision with FrogCounter, our advanced vehicle counting solution.

When traditional sensors aren't practical, FrogCounter utilizes cutting-edge laser technology for swift and accurate detection of vehicles entering and exiting your parking facility. **This ultra-fast system ensures real-time data accuracy**, providing live insights into available parking spaces level-by-level.

Our FrogCounters come with the option of both indoor and outdoor configurations, catering to diverse parking environments.

Utilizing LiDAR technology, our FrogCounters guarantee **unparalleled accuracy in vehicle detection**, ensuring a seamless and efficient parking management system.

With its sleek and aesthetically pleasing design, FrogCounter seamlessly integrates into any environment, enhancing the visual appeal of your parking area.

Elevate your parking management with FrogCounter, a practical blend of sophistication to an exactly optimized parking asset.

Data at your fingertips

FrogCounters wirelessly transmit your parking data to FrogHub- your data and analytics dashboard for live and historical reporting and data analysis.

Utilizing the latest technology

The beauty of our car counter is that it does not require magnetic loops, therefore has far less maintenance requirements than others in the market

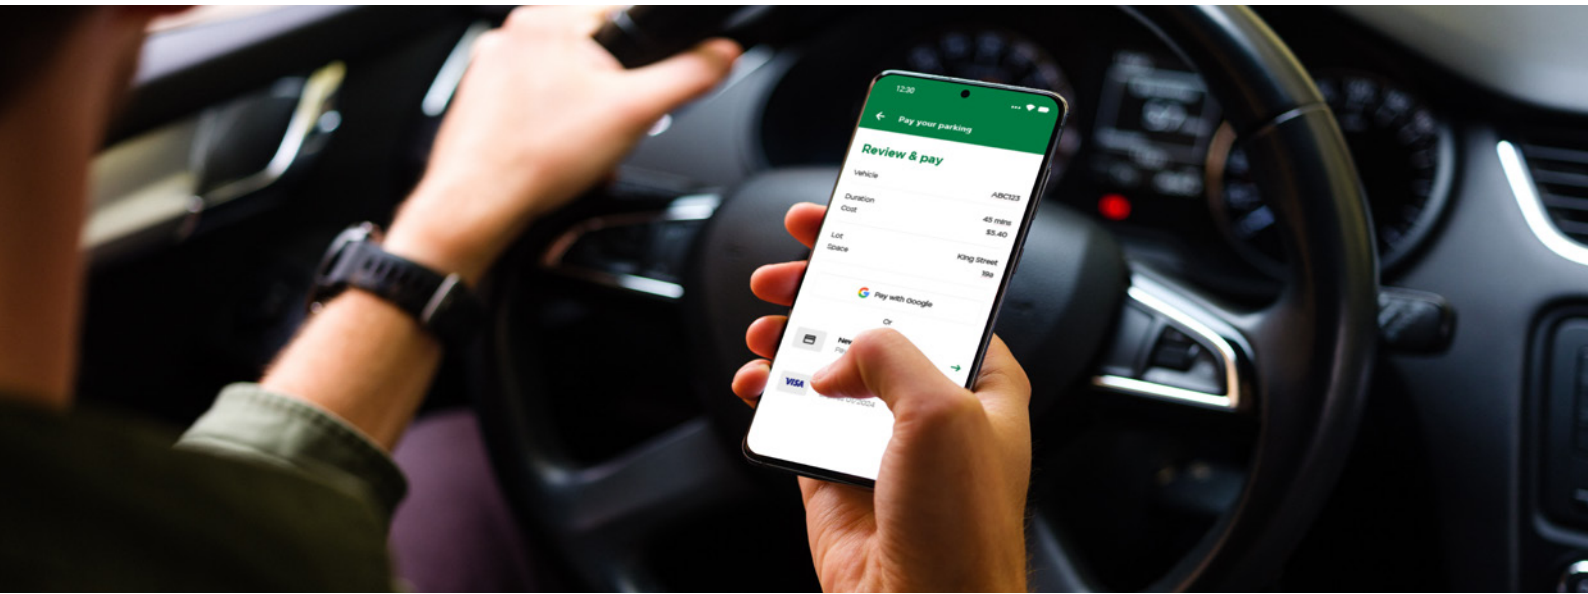

Supports bi-directional counting

Designed and optimized for complex sites, our bi-directional car counters ensure that you capture all vehicle movements in your lot with ease.

Software Solutions

FrogMobile

Instant. Convenient. Ideal.

Put parking in the hands of your customers with FrogMobile.

Introducing FrogMobile, the epitome of modern parking convenience at your fingertips. As a popular offering within our comprehensive FrogOne system, FrogMobile is not just another parking app; **it's a bespoke solution tailored exclusively to your needs.**

FrogMobile is a white-label application that has distinct 'a la carte' functionality options. This empowers you to select from a menu of available features, tailoring the app to align perfectly with your specific needs and preferences. With an incredible amount of features, FrogMobile ensures a highly personalized and user-centric experience. FrogMobile continues to go beyond traditional boundaries to facilitate seamless parking interactions.

FrogMobile is more than an app - it's a personal parking assistant. We guarantee it will **make parking hassle free for all users, allowing them to navigate their vehicles with ease.**

Embrace an ideal new level of instant parking convenience, tailored just for you, with FrogMobile.

Accessible payment options

Paying for parking is a breeze, thanks to Windcave's payWave technology, along with options like ApplePay, GooglePay, and more.

Available as a white-label app

Move beyond the generic and embrace an app that is uniquely yours. Our white-label approach allows you to infuse your branding seamlessly, ensuring a distinctive and personalized app experience that resonates with your audience.

Countless functionality options

Distinct 'a la carte' functionality options. This feature empowers you to select from a menu of available features, tailoring the app to align perfectly with your specific needs and preferences.

Make informed parking decisions with **FrogHub's** real-time insights.

FrogHub stands as our flagship analytics and data dashboard. This cutting-edge tool assists you in making optimal decisions for managing your parking asset, boosting revenue, and enhancing the overall driver experience.

FrogHub is the first customizable dashboard on the market to deliver **unparalleled insights into your all aspects of your operational, technical and revenue collection data.**

The real-time nature of this data facilitates seamless dynamic pricing and surge pricing adjustments. Additionally, scheduling features allow for editing and customization of rates in advance, minimizing administrative time during peak times and operational hours.

The true beauty of FrogHub is that it's so user-friendly that there's **no need for technical support**, making it a hassle-free solution for your needs.

For your own unique, insightful & flawless solution - look no further than FrogHub.

Unparalleled data insights

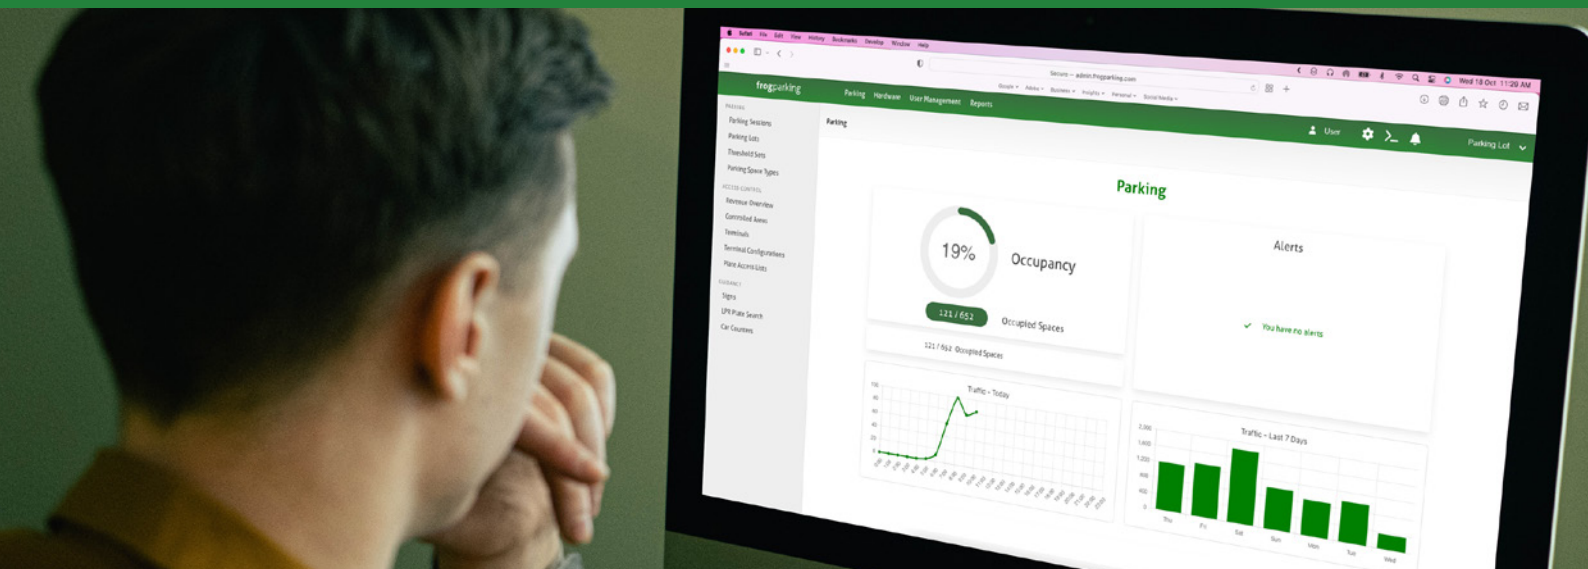

FrogHub allows for customized reports on all aspects of your technical, operational and revenue collection data including customer trends and behaviours.

User-friendly interface

The beauty of FrogHub lies in its simplicity, monitored through a user-friendly web-based portal. No technical support is required, granting you easy access to a wealth of information about your parking asset

Allows for instant rate changes

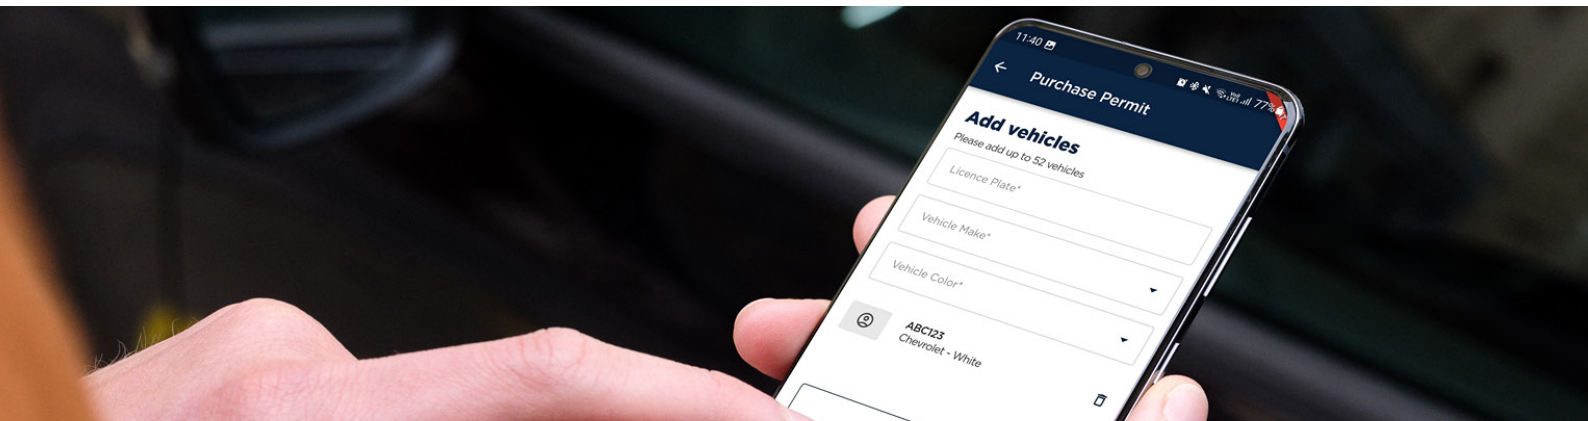

FrogHub facilitates pricing changes in real-time with a simple few clicks on your mouse. Not only that, you can even pre-schedule surge pricing to keep you extra organized

FrogPermit

Trusted. Smooth. Verified.

Revolutionize your parking management with FrogPermit.

Experience a paradigm shift in parking permit management with FrogPermit, a global sensation that simplifies the complexities of permit administration. Integrated seamlessly with FrogHub and FrogMobile, this intuitive solution offers **unparalleled ease, reducing administrative burdens, boosting revenue, and maximizing your parking asset's potential.**

FrogPermit caters to all permit types, from single-use to multi-use and carpooling, ensuring comprehensive coverage. **Achieve accessibility and sustainability targets effortlessly** with a wide range of customizable permitting options.

The application, payment, and enforcement processes become seamless with FrogPermit, offering users the convenience of applying and paying through the FrogMobile Application. Moreover, FrogPermit communicates seamlessly with FrogHub, providing **robust functionality for approval, invoicing, payments, waitlists, and more.**

The integration of FrogPermit with FrogHub offers world-class usage statistics, empowering you to make informed decisions and maximize revenue through strategic pricing adjustments.

Embrace the future of a trusted & smooth parking permit solution, that is verified with FrogPermit.

Significantly reduces admin

FrogPermit reduces unnecessary administration by putting permit management completely in the hands of your customers.

Countless functionality options

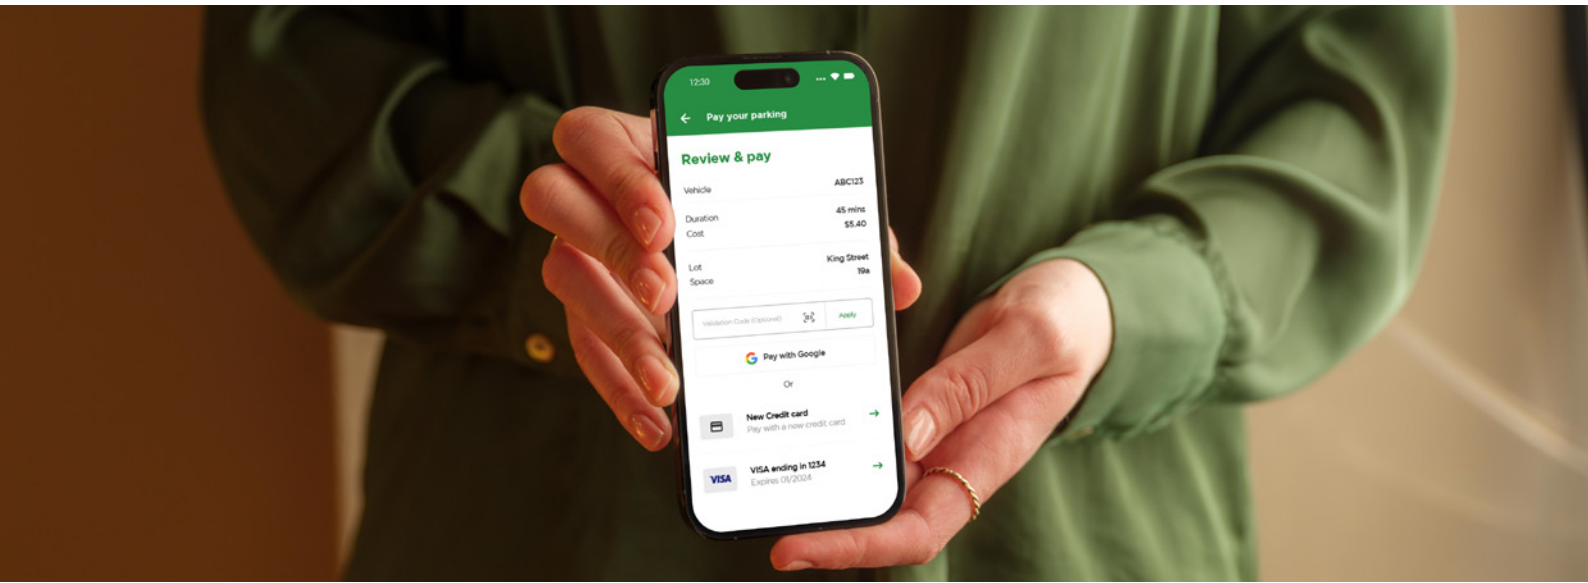

Whether it's for single-use, multi-use, or carpooling permits, FrogPermit covers all your parking needs. FrogPermit communicates seamlessly with FrogHub, providing robust functionality for approval, invoicing, payments, waitlists, and more.

A complete, end-to-end solution

From application to payment and enforcement, FrogPermit ensures a comprehensive and user-friendly experience. FrogPermit simplifies the complexities of permit administration.

FrogValidate

Ticketless. Verified. Quick.

Parking validation is made simple with FrogValidate.

Experience a revolution in parking validation with FrogValidate, an outstanding addition to your parking management suite. This advanced parking validation software is meticulously designed to enhance operational efficiency and attract more customers to your facility, **prioritizing a seamless end-user experience.**

Bid farewell to manual parking validation tasks as FrogValidate emerges as a leading digital solution.

With full customization options, FrogValidate offers versatility, supporting various validation methods, including mobile applications, unique QR codes, and manual validation codes.

This innovative software, seamlessly integrating with other Frogparking solutions, allows for **real-time application of complex parking validation requirements.** From early bird/happy hour rates to special access use or employee validation. Linked to your FrogHub, FrogValidate provides unprecedented insights into customer trends, usage patterns, and behaviors, **empowering you with invaluable data for informed decision-making.**

Let Frogparking take charge, with a ticketless, verified & quick solution to optimize revenue.

Contributes to sustainability goals

FrogValidate relieves the burdens of your admin staff by allowing users to effortlessly manage their own parking validations within their app.

Easily configurable for real-time updates

FrogValidate links with FrogHub to allow control over rate setting, validation processes, codes and accessibility. Updates are pushed live and reflect any changes made via FrogHub.

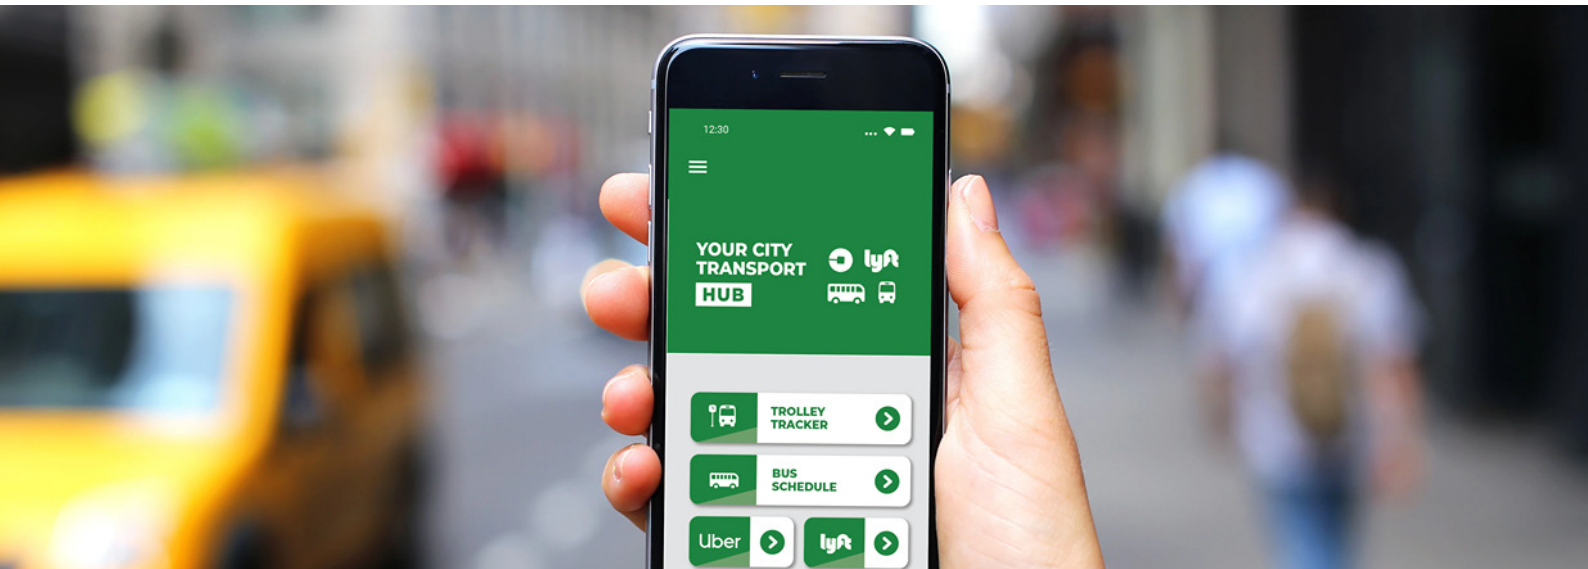

Completely scalable to suit your needs

Achieve enhanced accessibility and user satisfaction as FrogValidate streamlines the entire validation process, making it convenient, quick, and tailored to your individual preferences.

FrogTransport

Connected. Mobility. Accessible.

FrogTransport is your one-stop-shop for all things mobility-related.

FrogTransport is your comprehensive mobility hub for all things related to transportation. Serving as an advisory platform for transport options to and from your parking facilities, **FrogTransport enhances the customer experience by aggregating websites, apps, and various mobility solutions.**

Ideal for curbside management, drop-off/pick-up points, and integration with ride-sharing services like Uber and Lyft, FrogTransport extends its reach to include eScooters, public transportation timetables, and more.

Customize the modules to feature live parking space availability or forecasted occupancy during peak times, providing customers with clear directions and improving their overall experience.

Seamlessly connected to your FrogHub and FrogMobile, FrogTransport simplifies real-time changes through an intuitive dashboard, **complemented by world-class insights for optimized mobility experiences.**

For a connected & accessible parking facility that improves mobility, you cannot go past FrogTransport.

Improve accessibility to your site

FrogTransport links users to transport services like Uber, Lyft, and bus schedules for quick and easy mobility access. This comprehensive platform ensures a centralized solution for diverse transportation needs.

Improve congestion in hot-spots

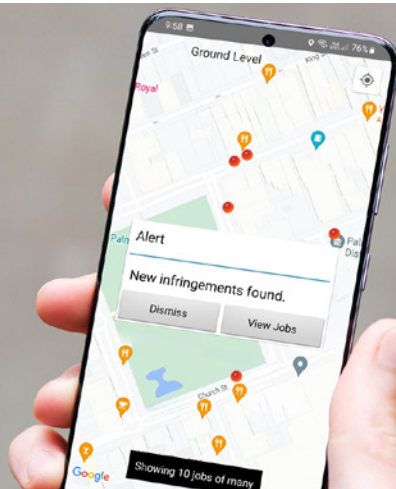

From ridesharing drop offs, to public transport schedules, to bicycle rack locations - FrogTransport empowers users to effortlessly explore and manage everything curbside-management related.

Integration opportunities are endless

Consolidate various transportation services into one seamless platform. With almost limitless integration options, FrogTransport has you sorted.

FrogComply

Monitor. Enforce. Optimize.

Optimize your parking enforcement operations with FrogComply.

Streamline parking enforcement operations with FrogComply, our cutting-edge solution designed to enhance the efficiency of parking compliance officers. Say goodbye to the tedious task of manual inspections as FrogComply dispatches officers in real-time, addressing infringements and **revolutionizing the entire compliance process.**

Watch your revenue and productivity soar as FrogComply optimizes the effectiveness of both compliance and enforcement operations.

This innovative solution allows officers to issue tickets directly from their phones, seamlessly sending all relevant data to FrogHub, our user-friendly web-based platform, for effortless follow-up management. FrogHub enables **easy payment processing, appeals handling, reminders, and more, simplifying the entire process and ensuring a positive alignment with your revenue goals.**

FrogComply brings a transformative shift to the way parking compliance and enforcement operations are managed. It provides a world where tasks are simplified, efficiency is maximized, and the impact of compliance officers is more significant than ever.

FrogComply is an easy way to monitor, enforce & optimize your enforcement operations.

Maximize your parking revenue

Empower your parking enforcement with FrogComply, ensuring efficient operations that contribute to revenue maximization and overall financial success.

Encourage positive parking behaviour

FrogComply revolutionizes compliance management, encouraging positive parking behavior through real-time enforcement and seamless follow-up processes.

Fully configurable workflows

Tailor FrogComply to your specific needs with fully configurable workflows, optimizing efficiency and ensuring a personalized and effective parking compliance and enforcement solution.

Elevate your valet services with the revolutionary **FrogValet**.

Step into the future of valet services with FrogValet, a comprehensive vValet management system meticulously designed to align with your operational needs. The primary goal is to streamline administrative processes, enhance revenue opportunities, and reduce costs, all while delivering a **premium experience for your customers**.

FrogValet ensures a seamless end-user experience and provides an exceptional, user-friendly tool for your valet staff. With options for a mobile application or a web portal, FrogValet guarantees the best user experience on the market, featuring an easy 'text to pull' feature for customer vehicle requests.

Supporting a wide range of payment options, including ApplePay, GooglePay, payWave, WeChat-Pay, AliPay, and more, FrogValet offers a completely digital, ticketless, and painless experience for both valet staff and customers.

Connected directly with your FrogHub, FrogValet provides unprecedented data insights, covering everything from capability and capacity to revenue optimization strategies, making it the ideal valet management system for any scale of valet operation.

If you're dreaming of a premium, elite & intuitive solution - FrogValet is the way to turn it into a reality.

Reduce administration time

Elevate your valet operations with FrogValet, streamlining administrative processes to reduce time, enhance efficiency, and deliver a premium customer experience.

Lower liability than traditional valet systems

Experience enhanced safety and reduced liability with FrogValet, surpassing traditional valet systems through its user-friendly features and advanced technology.

Enable value-adds easily

Unlock opportunities for value-added services effortlessly with FrogValet's comprehensive system, providing a seamless, digital, and customizable experience for both valet staff and customers.
