

Introducing

FrogComply

Monitor. Enforce. Optimize.

Frogparking is a world-leading provider of comprehensive parking management solutions. Currently, we hold the unique position as the only company capable of delivering a complete customized end-to-end package, from access to exit. Our in-house agile global team are committed to crafting aesthetically pleasing parking solutions, while constantly developing and using cutting-edge technology. We hold several pioneering achievements; the first to introduce outdoor solar sensors, incorporate LiDAR technology into indoor sensors, and to develop a self-resetting barrier arm.

With a rich fifteen-year history, we confidently endorse our products, knowing their ability to withstand the test of time. Beyond their innovative nature, our products are not only reliable but also enjoy a trusted reputation. We pride ourselves on helping our customers increase yield, reach revenue potential and support their overall organizational goals.

“The possibilities are endless when you **take a leap into the future** with Frogparking.”

All products can be tailored to your unique needs.

One system. One supplier.
One dashboard.
End-to-end supplier.

Completely cloud based system for seamless operations and control.

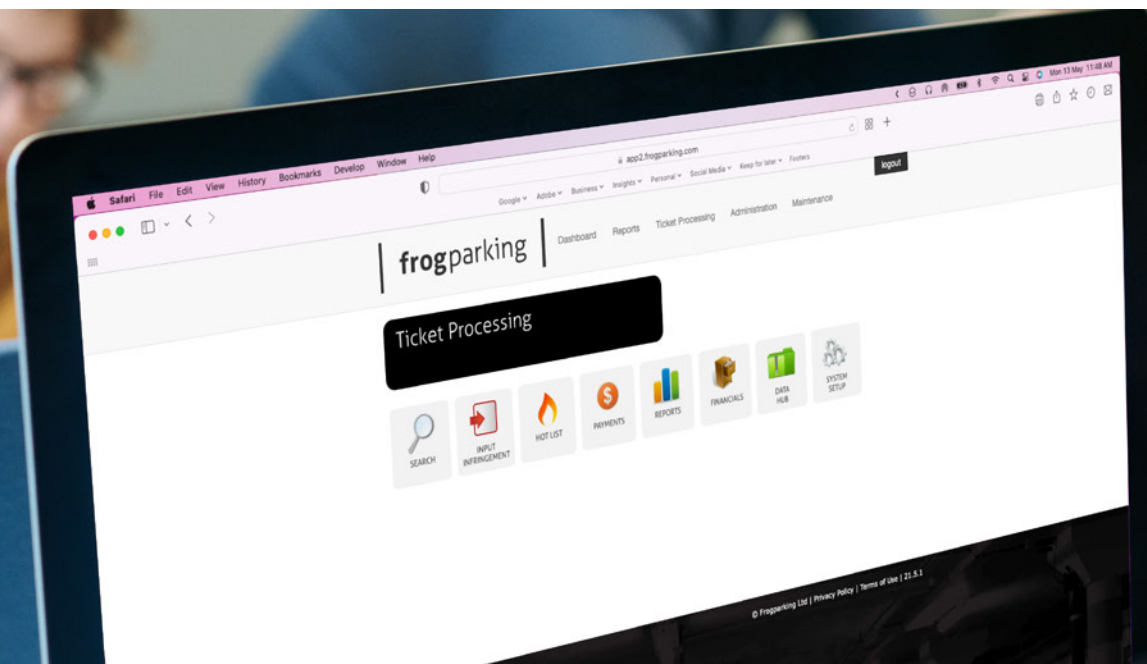

FrogComply

Specialized enforcement software

Your answer to a complete end-to-end enforcement software solution.

Introducing FrogComply – your 'one stop shop' for all things parking enforcement & compliance. As an essential part of the FrogOne lineup, FrogComply streamlines operations while maximizing your enforcement officers time. FrogComply is designed to dispatch officers in real-time, addressing infringements and revolutionizing the entire parking compliance process. FrogComply allows compliance officers to issue tickets directly from their smart device, sending all relevant data to FrogHub (our user-friendly web based platform). Parking compliance officers can even strengthen the case by attaching photos, notes, video, or even voice media to each citation.

As all information is automatically sent to FrogHub, you can easily take payments, appeals, reminders and more directly – significantly reducing administrative time & costs. Watch both your revenue, and productivity soar as FrogComply revolutionizes the effectiveness of both parking compliance and parking enforcement operations.

FrogComply

What makes us unique?

Why choose FrogComply?

Why choose our solution over others in the market?

Clean & simple to use

Effortlessly issue parking tickets from any mobile device, and send the details directly to your FrogHub for follow up. FrogComply is so easy to use – it simplifies all aspects of monitoring, enforcing and optimizing parking compliance

Attach media & notes

Compliance officers now have the ability to back-up each parking citation by attaching photos, videos, detailed notes, and even voice recordings when creating tickets.

Dispatch direct

Gone are the days of your compliance officers walking around manually checking for violations. FrogComply dispatches compliance officers directly to infringing vehicles, with a simple ping to their smart device.

Reduced admin

Take the pressure off your administrative staff by automating processes. FrogComply cuts down time-consuming admin by managing all payments, appeals, reminders and more on your bespoke FrogHub.

Easy to monitor

With FrogComply, you have full visibility over your parking spaces. Linked seamlessly into FrogHub, you gain access to useful statistics including infringement data, trends, appeals and more.

White label

Move beyond the generic and embrace an app that is uniquely yours. Our white-label approach allows you to infuse your branding seamlessly into the compliance app & adapt invoices, tickets, appeals & reminders to suit your operational needs.

Direct digital payment

Experience unparalleled versatility with FrogComply's wide array of payment options. Harness the power of QR codes, Apple Pay, Google Pay, Ali-Pay, WeChat Pay, and more.

Continuous innovation

Stay ahead with FrogComply's commitment to continuous innovation. Benefit from regular updates and enhancements, ensuring that you always have access to the latest and most advanced features in the world of parking technology.

Supporting sustainability

By adopting a cashless and ticketless system, we not only simplify your parking experience but also significantly reduce your environmental footprint.

Industry-leading security

Frogparking takes security seriously. Prioritize user data security with FrogComply, ensuring a safe and trustworthy platform for all transactions and interactions within the app.

Cloud based software

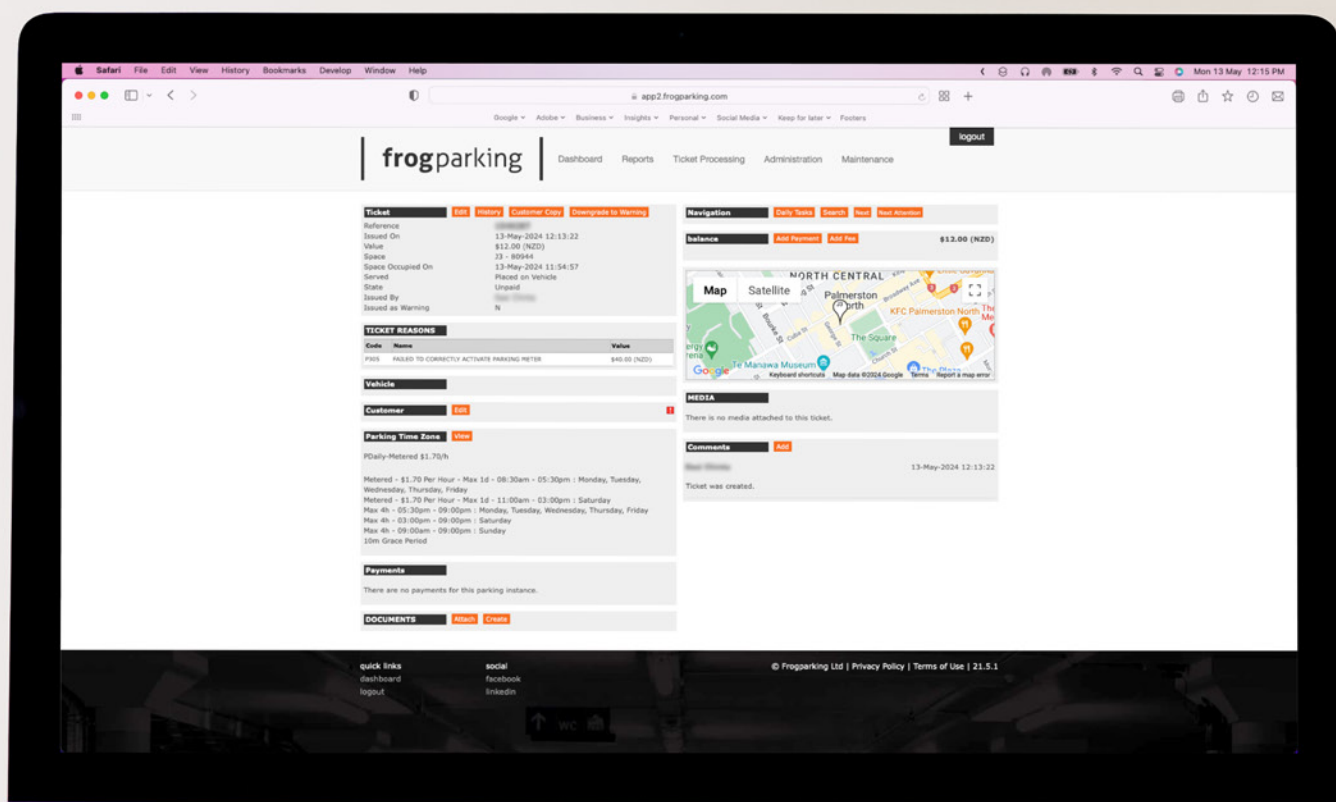

All your valuable data is stored off-site using cellular data communication for added reliability and peace of mind. Plus, no need to find a room to jam-pack with servers.

'Integration' with third-party systems

FrogComply has the ability to link into third-party systems including existing payment kiosks and ticket printers. Boost your system's functionality by importing and displaying occupancy information from existing parking systems, open API connections, generate SSO for federated system logins & more.

What are the benefits of FrogComply?

1

Efficient parking workflows: streamlining your experience

Discover hassle-free parking management with FrogComply, empowering compliance officers to effortlessly navigate and manage parking compliance. Our user-friendly platform ensures a seamless process, simplifying all aspects of monitoring, enforcing and optimizing parking compliance.

2

Cost-effective parking operations: user-managed savings

FrogComply significantly reduces internal parking operation costs by specifically targeting infringing vehicles and sending reports directly to your system. No longer will compliance officers waste their time wandering aimlessly chalking tyres. Our system allows for seamless ticketing, resulting in higher compliance rates, substantial operational savings and a leaner, more efficient system.

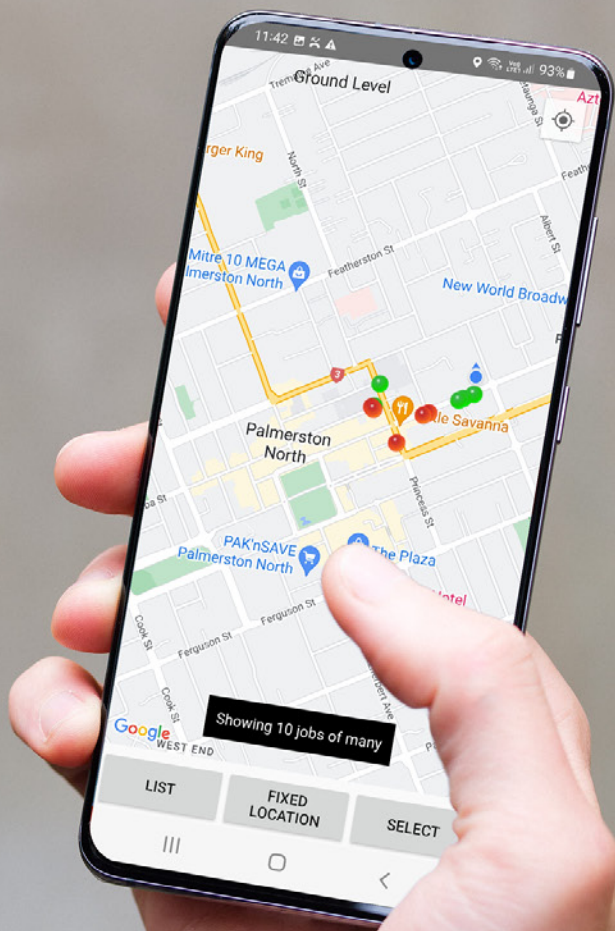

3

Financial optimization: reducing capex/opex burdens

FrogComply revolutionizes parking compliance management by automating processes, eliminating cash handling, and optimizing resource allocation. Through streamlined operations and cashless transactions, FrogComply significantly reduces both upfront capital expenditures and ongoing operational costs associated with traditional parking management systems.

FrogComply

Compliance officer mobile application

FrogComply: Empowering targeted, on-the-go enforcement

FrogComply is the ultimate smart device enforcement app designed for your on-the-ground compliance officers. Seamlessly linked to FrogHub through the cloud, this app revolutionizes parking enforcement by directing compliance officers to the nearest infringing vehicles for swift and timely action.

With FrogComply, issuing tickets, suppressions, and warnings is just the beginning. Attach media files to tickets, upgrade ticket statuses, create and monitor hotlists, and more—all from the convenience of your mobile device.

Integrated seamlessly with third-party software for ticket printing, FrogComply's capabilities truly endless. Experience the power of FrogComply and elevate your enforcement efforts today.

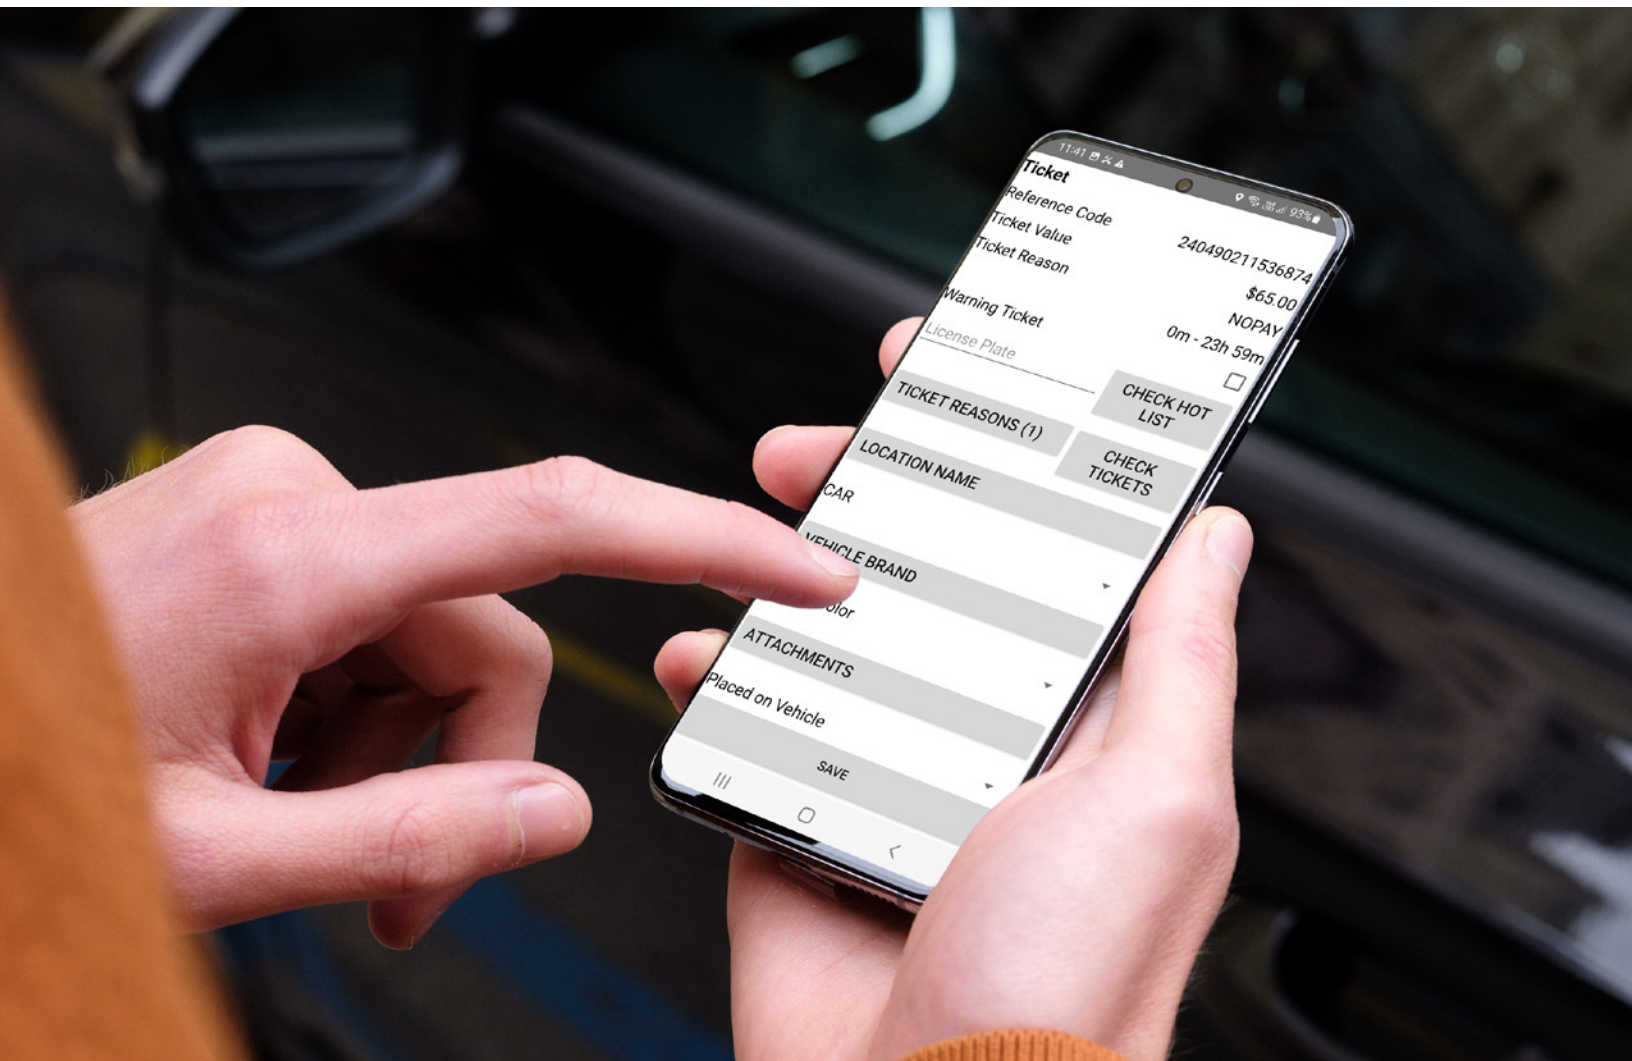

Powered by 

FrogComply

Issuing tickets

Issuing a ticket is easy with FrogComply's application.

With FrogComply's ticketing solution - you have a range of options at your fingertips. Issue a warning, run the car's license plate through a 'hot list' check, log the car details, and attach media such as images, videos, or voice recordings. Once you've completed the necessary steps, simply hit save. Your data is seamlessly sent through the cloud and stored in your FrogHub dashboard for logging and monitoring purposes. With the integration of third-party hardware, you now have the added option to print your ticket, enhancing your enforcement capabilities even further.

FrogComply

Bluetooth printer

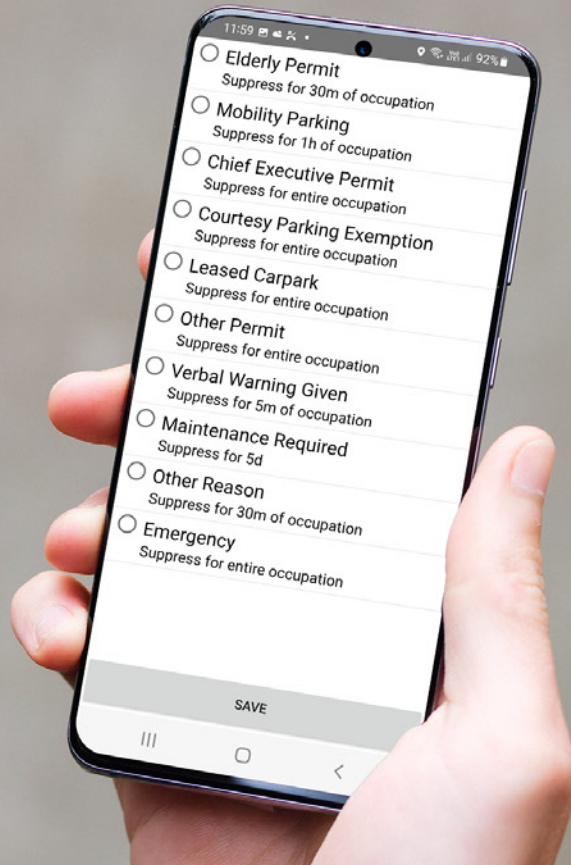

Frogparking's Android, mobile enforcement app and **Bluetooth printer for citation issuing.**

Streamline your ticket issuing process with our hand-held ticket printers, designed to work seamlessly alongside FrogComply to optimize your parking management. These devices make ticketing faster and more efficient, helping you maintain smooth operations with minimal effort.

FrogComply

Issuing suppressions

Empowering flexible parking enforcement **with suppressions.**

With FrogComply's comprehensive enforcement suite, we offer suppressions as a flexible alternative to immediate ticketing. Not every infringement requires enforcement action.

Whether it's a sensor misfire, a customer emergency, or a valid permit in place, suppressions provide a tailored solution. Our customizable suppression list empowers you to define specific reasons for suppression, from elderly permits to leased carparks, emergencies, verbal warnings, courtesy parking exemptions, and more.

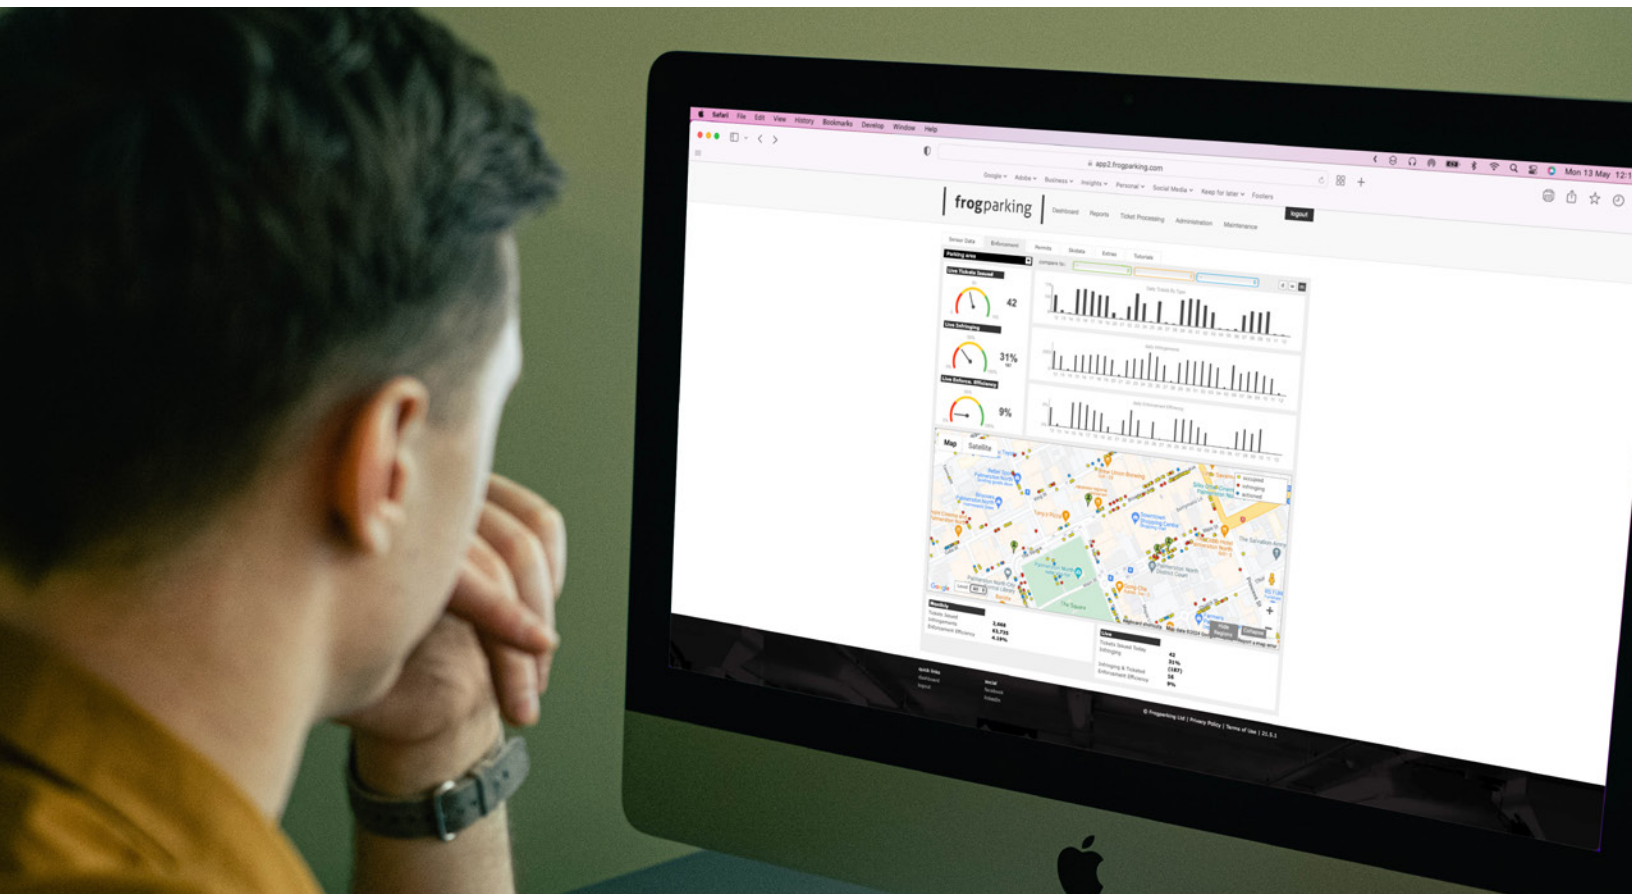

With FrogComply, the decision to ticket rests in the hands of the compliance officer, ensuring enforcement actions align with specific circumstances and public needs.

FrogComply

The Dashboard

Seamless management with your **cutting-edge dashboard.**

Welcome to the FrogComply dashboard, your central hub for streamlined parking management. Our dashboard provides you with a comprehensive overview of your parking enforcement operations in real-time. You can easily visualize your parking areas with a live mini-map, where colored dots represent occupied spaces, infringing vehicles, and ticketed vehicles; giving you immediate insights into the status of your parking zones. Stay informed with live statistics, including ticket counts, infringement count, and efficiency counts, allowing you to track your performance effortlessly. Choose between daily, weekly, or monthly overviews and access live plots showcasing your latest enforcement data for actionable insights. With FrogComply, managing parking compliance has never been more efficient or insightful.

FrogComply

Monitoring zones

Effectively orchestrate your enforcement management with **zone monitoring**.

Introducing the zone monitoring and comparisons feature - integrated seamlessly into FrogComply. This intuitive tool enables you to compare different zones within your parking jurisdiction, accessing a range of data and statistics for actionable insights.

Easily compare infringement statistics and compliance rates across your selected zones, gaining valuable insights tailored to each area. With the ability to compare up to four zones simultaneously, you can conduct thorough evaluations and benchmarking exercises to optimize your parking enforcement strategies effectively.

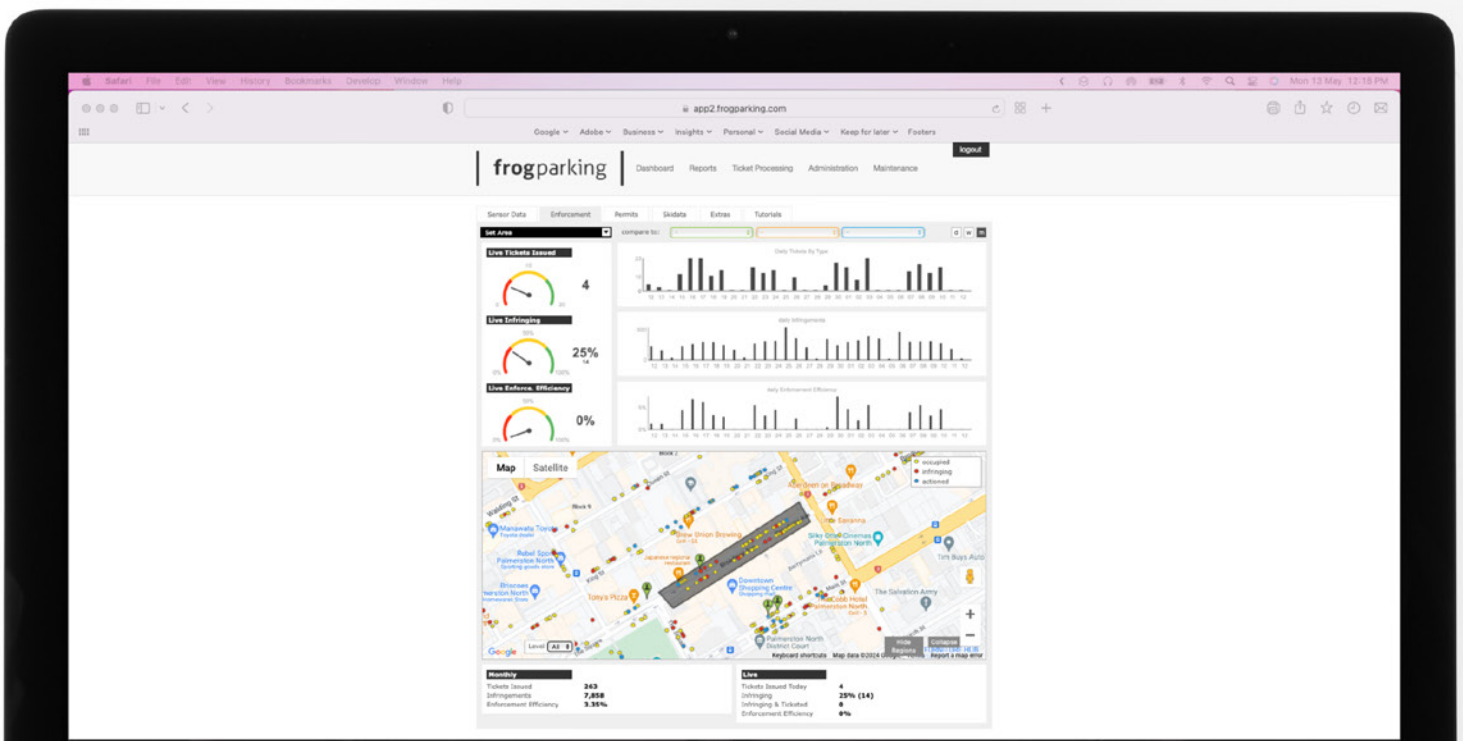

Unlock the power of FrogComply to make informed decisions and drive compliance across your entire parking landscape.

Isolate data for a specific zone with FrogComply's zone isolation.

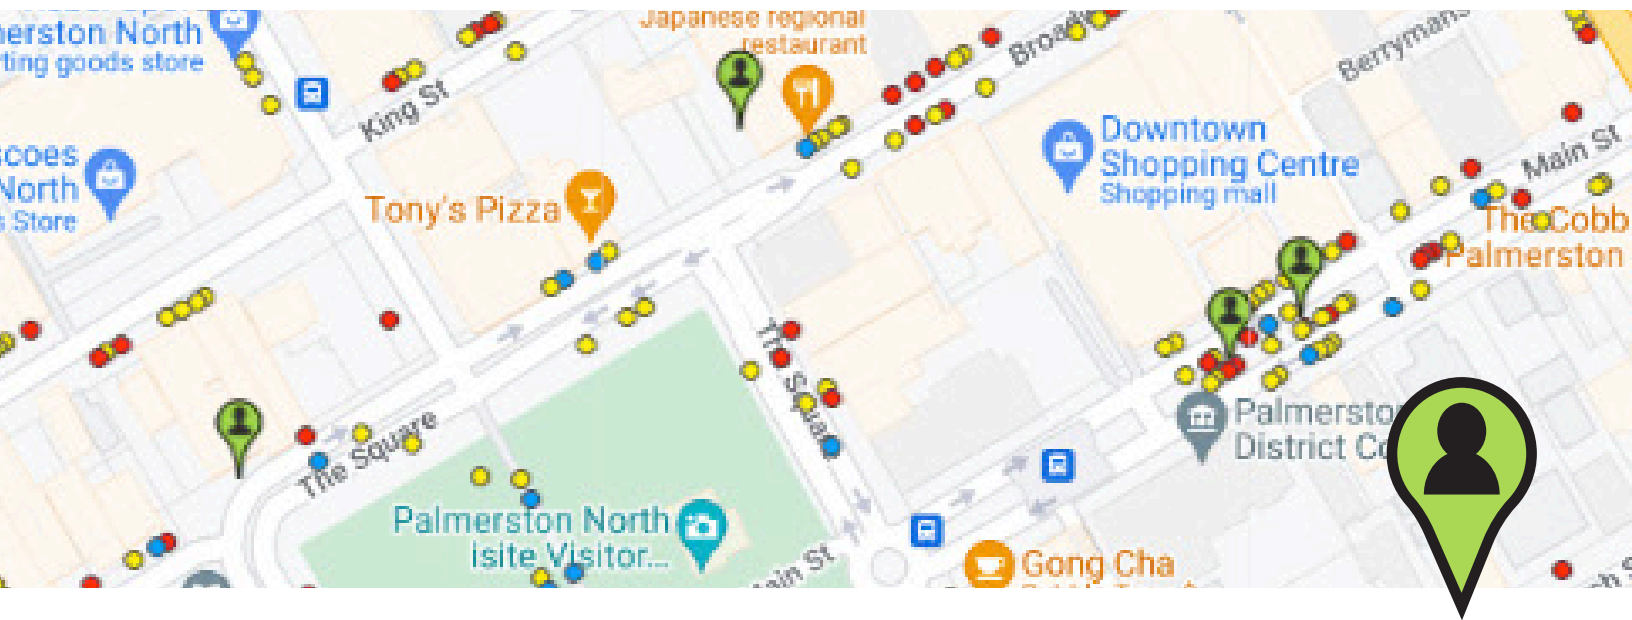

Ever wondered if one zone is skewing your data? Curious if one street is performing above the rest? Maybe you have multiple parking garages and you want to hone in on the performance of just one?

Now, with our intuitive tool, you can set your focus on just one zone. With an easy-to-use interface, just input your designated zone in the black toggle box, and voila! Instant access to data specific to that zone's performance.

From infringement statistics to compliance rates, monitor how your chosen zone operates within your parking framework. Whether it's a street or a neighborhood, this intuitive tool empowers you to optimize your parking enforcement effectively and implement informed changes to drive compliance across your parking landscape.

Compliance officer management & dispatch: **Rapid response to parking violations.**

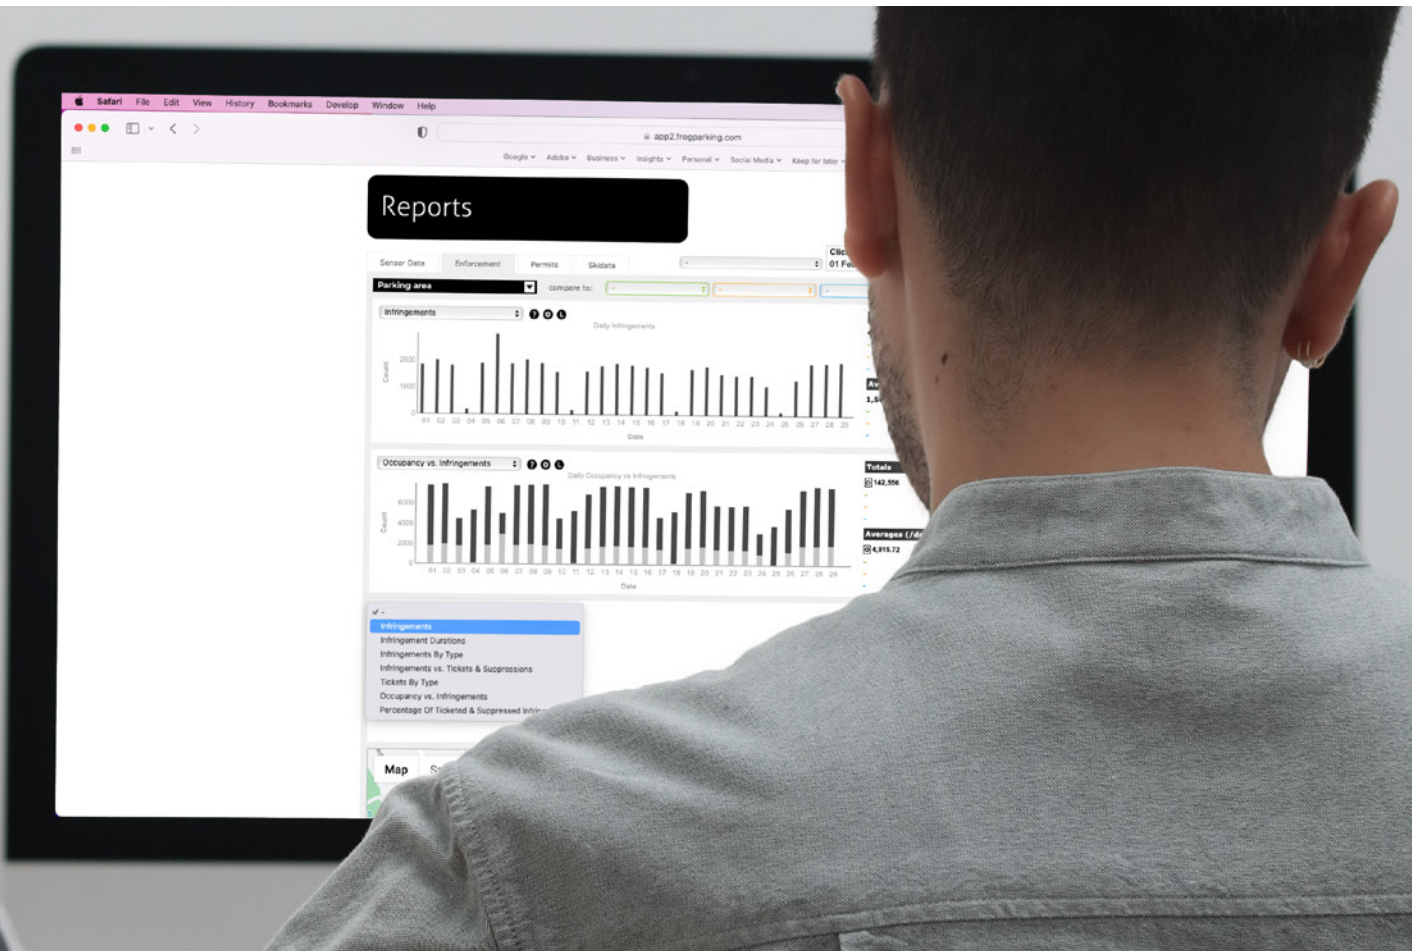

With FrogComply's live mini-map, you gain expert visibility over the whereabouts of parking compliance officers, ensuring optimal deployment across your jurisdiction. Our software encourages swift action by allowing you to direct the nearest parking compliance officer to zones with the highest rates of infringement. This rapid response mechanism ensures that violations are addressed promptly, bolstering compliance and maximizing ticket revenue. By strategically targeting compliance officers to specific zones, you effectively allocate your resources, optimize enforcement efforts and minimize response times.

This dynamic feature not only streamlines operations, but also enhances overall efficiency. By providing precise control over compliance officer deployment and enforcement actions, FrogComply revolutionizes the way you manage parking compliance. Embrace this innovative software today and experience firsthand the transformative impact it has on your parking management strategy.

FrogComply

Tailored reporting

Unlock insights with **fully tailored reporting at your fingertips.**

Experience Frogparking's exceptional service, with flexibility to design your own customizable reporting feature that aligns to your operational needs.

With the ability to create tailored reports, you have the power to gain valuable insights instantaneously. With a few simple clicks, you can gain visibility into compliance revenue or choose to dive deeper into a variety of other reports.

The world is your oyster when it comes to parking management reporting – let us know what you need and let us make the magic happen for you.

Unpack more information with **your comprehensive ticket log.**

Introducing our comprehensive ticket log system, designed to efficiently capture and manage data on all issued tickets. With a quick glance, users can access essential information such as ticket reference codes, issued dates, issuer details, and the current payment stage (whether paid, unpaid, overridden, etc.).

From the log, simply navigate to a ticket you wish to explore and hit the “view” button to unveil a wealth of detailed information, including the ticket cost, parking space details, vehicle information, reason for the ticket, and any attached media.

But that's not all – you retain complete control, with the ability to edit ticket details, manage payments, add fees or comments, generate and attach documents, and even downgrade a ticket to a warning if desired. With our ticket log, managing parking infractions has never been more efficient or user-friendly.

More customization options with **third-party integration capabilities.**

FrogComply leads the way in versatility, boasting unparalleled integration capabilities with third-party systems. Whether it's seamlessly integrating with external hardware solutions or incorporating diverse payment options, FrogComply is tailored to meet your unique needs. Our system goes beyond simply offering the flexibility of API connections. We enable third-party developers to harness FrogComply features, subject to terms and conditions.

The possibilities are truly endless, as our in-house software team possesses the expertise to shape your validation software into a fully customized solution tailored to your specific requirements. If a third party is ready to integrate, **FrogComply becomes a dynamic canvas, capable of accommodating a diverse range of functionalities.**

Explore the boundless potential of FrogComply, where integration meets innovation, and your system transforms into a fully customized, feature-rich solution.
